AFTER
Armed Forces genital Trauma and psychosexual Experiences Research

Help shape new support

Calling ex-servicemen who sustained a physical injury during military operations since 1969!

Did your injury affect your sexual function, cause scarring to groin or buttock areas, or involve genital scarring or injury?

Take part in our research:
Confidential online survey
and/or
Online or phone interview

Taking part will inform the development of new support to reduce the impact of physical injuries on sex, intimacy, and relationships

Scan the QR code to participate

Or email us : **afterstudy@kcl.ac.uk**

AS A THANK YOU, YOU WILL RECEIVE £10 FOR SURVEY AND £20 FOR INTERVIEW
